

No. of Functional Features Included in the Solution

Date	08 October 2026
Team ID	UNM1611BHAVANA
Project Name	AI FitTrack API
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	User Registration & Login	Sign-up and login with hashed passwords and JWT tokens	Auth module	Done	1
2	Profile Management	Store and update age, height, weight, activity level and goal	User model / controller	Done	0.5
3	Workout Tracking	Create, view, update and delete workout sessions	Workout module	Done	0.5
4	Nutrition Tracking	Log meals and calories with daily totals	Nutrition module	Done	0.5
5	Goal Management	Set targets (weight, calories, workouts per week) and track completion	Goal module	Done	0.5
6	AI Recommendations	Personalised workout and diet suggestions from profile, goals and history	AI recommendation module	Done	1
7	Progress Analytics	Weekly and monthly summaries of workouts and calories	Progress controller	Done	0.5
8	Validation & Error Handling	Request validation and consistent JSON error responses	Middleware	Done	0.5

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	6 (Login, Workouts, Nutrition, Goals, AI Recommendations, Validation)
Additional / Nice-to-Have Features	2 (Profile Management, Progress Analytics)
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	0 (API-only; tested via Postman)	-

S.No	Category	Features in Category	Example Features
2	Backend / Logic	4	Workout tracking, goals, progress analytics, AI recommendations
3	Database / Storage	2	Profile management, nutrition logging (MongoDB)
4	API / Integration	1	REST endpoints, AI recommendation integration
5	Security / Authentication	2	JWT registration/login, validation and error handling
