Maximum Marks	2 Marks

Customer Journey Map

The customer's experience with the AI FitTrack API, stage by stage, with actions, touchpoints, thoughts and feelings, plus process ownership and improvement opportunities.

Phase of Journey	Stage 1: Sign Up and Set Goals	Stage 2: Log Activity and Get AI Guidance	Stage 3: Review Progress
Actions <i>What does the customer do?</i>	- Registers an account - Logs in and receives a token - Enters profile and fitness goal	- Logs workouts, meals and water - Requests an AI workout / diet plan - Updates entries when needed	- Views weekly and monthly reports - Checks goals, streaks and trends - Adjusts goals and plan
Touchpoint <i>What part of the service do they interact with?</i>	- POST /auth/register - POST /auth/login - PUT /users/profile	- POST/GET /workouts, /meals - POST /recommendations - PUT/DELETE log entries	- GET /reports/weekly - GET /goals and /progress - PUT /goals
Customer Thought <i>What is the customer thinking?</i>	"Is my data safe?" "Setup should be quick." "I hope this fits my goal."	"Logging should take seconds." "Will the plan suit me?" "Did my entry save correctly?"	"Am I really improving?" "What should I change next?" "I want to keep my streak."
Customer Feeling <i>What is the customer feeling?</i>	Curious but cautious	Engaged and supported	Motivated and confident
Process Ownership <i>Who is in the lead on this?</i>	Authentication and user module (Bhavana)	Activity logging and AI module (Thejasri, Tamilvanan)	Reporting and testing (Vasigaran)
Opportunities <i>How can we improve this stage?</i>	- Social / OAuth login - Input validation with clear errors - Quick-start goal templates	- Bulk and quick-add logging - Food and exercise database - Faster AI response with caching	- Charts-ready data endpoints - Progress notifications - Export reports as PDF / CSV
