Project Name	AI FitTrack API
Maximum Marks	2 Marks

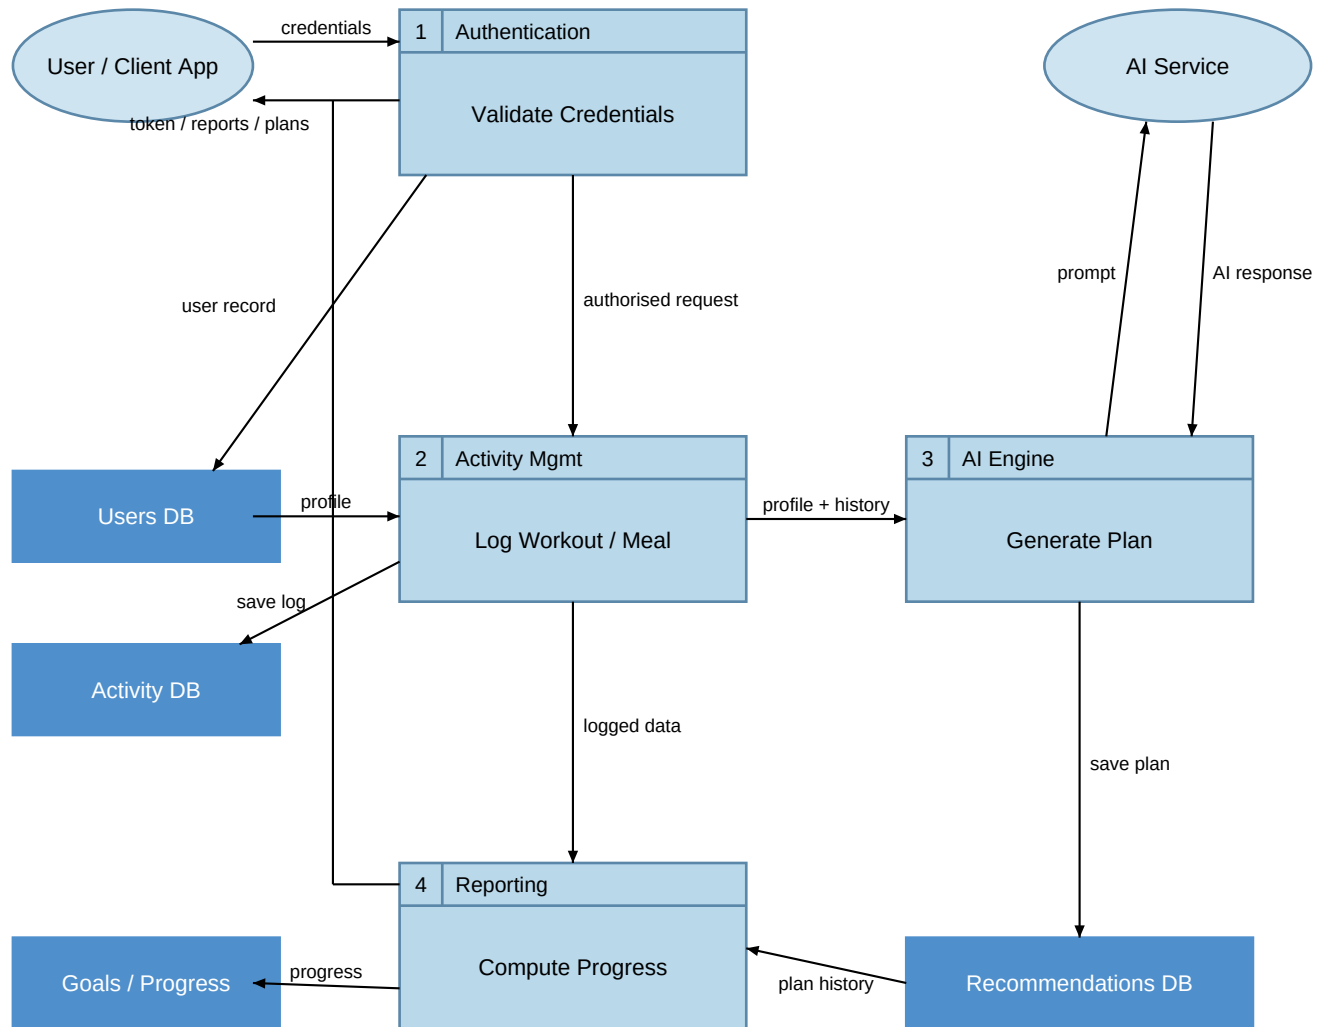

Data Flow Diagram

The DFD shows how data moves between the external entities (User / Client App, AI Service), the four processes of the AI FitTrack API and its MongoDB data stores. Symbols follow the legend in the template.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	Person or system outside the project (User / Client App, AI Service).
Rectangle with numbered header	Process	Transforms incoming data into outgoing data (Authentication, Activity Management, AI Engine, Reporting).
Rectangle (solid fill, no number)	Data Store	Holds data for later use (Users DB, Activity DB, Recommendations DB, Goals / Progress).
Labeled arrow	Data Flow	Movement of data between entities, processes and stores.

Diagram

Reports, plans and status responses are returned to the User / Client App as JSON.
Processes are numbered; data stores are filled rectangles; external entities are ovals.
